ISO 27001:2013

This certificate is valid for the activities specified below:

Taoglas, as a leading enabler of digital transformation have defined the scope of their Information Security Management System (ISMS) as applicable to technical equipment, systems, data and infrastructure that Taoglas utilise to design, build and deploy solutions that support IOT, including its managed services.

Certification to the standard is made under the Statement of Applicability (version 1 dated 22/09/2021) and Certification Europe has adjudged that the exclusions under this Statement do not compromise the integrity of the ISMS.

Certification of Registration remains the property of Certification Europe Ltd.
The validity of this Certificate is maintained on the condition that the Management System is assessed through an on-going surveillance programme and continues to adequately meet the requirements of the standard.
