

TAOGLAS®

Datasheet

SuperCombo Series

Part No: MA1047.A.LBICGTT.001

Description

7-in-1 Shark fin with GNSS, 2x 5G-4G, 2 x Wi-Fi, 1 AM-FM / WB and 1 DAB and FAKRA Connectors with Pigtail RG-178 Cables

Features:

Low-profile Shark fin Combination Antenna

- 1x GNSS
- 2x 5G/4G MIMO
- 2x Wi-Fi MIMO
- 1x AM/FM / WB
- 1x DAB

IP67 Rated Enclosure

Cables: Staggered RG-178

Connectors: FAKRA Series Connectors

Dimensions: 96 x 80 x 60mm

RoHS & Reach Compliant

1. Introduction

Introducing the Taoglas World SuperCombo MA1047 antenna, an incredibly compact, yet powerful, 7-in-1 shark fin style combination antenna. It provides multiple antenna connections in a sleek, covert enclosure and is suitable for all automotive and commercial trucking applications. The SuperCombo has been engineered to be mounted directly on the vehicle roof and is supplied with pigtail RG-316 cables and FAKRA connectors as standard.

The SuperCombo is designed with active GNSS (GPS/GLONASS/BeiDou/Galileo), 2*5G/4G Cellular MIMO, 2*Dual-Band Wi-Fi, Active AM/FM and DAB. All high-performance antennas are packaged in a compact, robust, IP67 rated enclosure.

The GNSS antenna cover the GPS L1, GLONASS G1, BeiDOu B1, and Galileo E1 bands as well as SBAS. The two high-performance cellular antennas in the SuperCombo cover sub 6GHz, 5G and 5G cellular bands offering efficiencies of up to 80%. Fallback to 3G and 2G bands is also possible where 5G and 4G is not accessible. The Wi-Fi antennas cover both the 2.4GHz and 5.8GHz Wi-Fi bands.

Typical Applications Include:

- Transportation and Fleet Management
- Autonomous Driving and Robotics
- FirstNet, First Responders and Emergency Services

The cables, connectors and whip are fully customizable, the antenna is supplied with two whip antennas in the package. For further information or installation instructions contact your regional Taoglas customer support team.

2. Specification

GNSS Frequency Bands
